

VISION Groups

visual impairment support, information, & networking

VISION Groups are a great resource for:

- People recently diagnosed with a visual impairment.
- Those who have been living with vision loss for a while.
- Anyone who is supporting a person with a visual impairment including spouses, adult children, friends, and caregivers.

At these events, IN-SIGHT staffers Chris Butler, Lucille Gaboriault, and Doreen Holmes will be available to answer any questions that you might have. They will also offer an overview of resources that are available to help you increase your confidence.

You will also meet and hear from people who are in a similar situation to yours and learn how they have overcome some of the same issues that you may be currently experiencing.

VISION Groups are open to everyone, and you can attend the meeting that is most convenient for you.

You don't need to pre-register to attend.

For more information, contact Lucille at (401) 941-3322, ext. 121 or via email at lgaboriault@in-sight.org.
